Dear Medical Professional,

Thank you for giving me this opportunity to introduce to you the great products and services we provide at Elixir Industry.

Over the past twenty years I have seen the company enjoy remarkable success, growing from a fledgling small factory into a multinational corporation with presence in seven countries and regions around the world.

Our customers, our partners, and especially our employees have made Elixir Industry a dynamic growth company. Today's demanding business environment insists on high potency products, expert service, and an ever-increasing emphasis on quality.

Since Elixir Industry's inception, the emphasis on quality in our industry has become stronger year after year. We implemented a formal Total Quality Management (TQM) to meet this challenge. The successful implementation of this program led to our Good Manufacturing Practice (GMP) certification in all three manufacturing facilities around the world. We are very proud of this accomplishment, as it reinforces our company-wide commitment to provide quality products and services.

While our company is growing at an extraordinary rate, we understand the importance to preserve and improve our environment. Our organization has gone to great lengths to do our part in making this planet a more beautiful and resourceful place to live. Through our progressive recycling programs and community-based activities, Elixir Industry will continue to do its part in promoting a higher level of social responsibility.

At Elixir Industry, our collective mission is simple: to identify and provide value in products and services that empower people to lead healthier lives. We approach this mission through investment in cutting edge research, development of breakthrough products, and promotion of a genuine commitment to customer education.

Over the years, we have found the best value through partnerships. Collaboration with our long-term research partners enables us to develop highly effective products. Strong partnerships with medical professionals have helped us consistently deliver high quality products in a timely fashion. I invite you to challenge us to serve your requirements.

Sincerely,

A handwritten signature in black ink that reads "Donald Szeto".
